Hanging Paper Star

You will need

One 30cm sheet of Snowman paper
Pencil
Ruler
Scissors
Double sided tape
Hole punch
Ribbon

**STEP 1**

Take your 30cm sheet of paper and, using a ruler and pencil, divide into nine equal squares measuring 10cm x 10cm. Cut along these lines.

**STEP 2**

Take each 10cm square and fold in half diagonally, patterned sides facing. Fold in half diagonally again.

**STEP 3**

With folded edge to the left, mark 1cm in from the edge and draw a fine line.

**STEP 4**

Starting from the bottom left corner mark points along both the left and the bottom edges at 2.5cm, 4cm and 5.5cm. Draw a line to join each point, stopping at the vertical line. Cut along each line, making sure you stop at the 1cm vertical line and open out.
STEP 5
With wrong side facing, take the middle two pieces and roll over towards each other. Use a small piece of double sided tape to secure.

STEP 6
Turn the paper over and roll the next two pieces over towards either other and secure with tape.

STEP 7
Turn the paper over and roll the third section pieces over towards either other and secure with tape.

STEP 8
Turn the paper over and roll the final two sections over towards each other and secure with tape.

STEP 9
Repeat with each of your nine cut squares. Using double sided tape, secure all sections together at the tip. It is easiest to do this in sections of three and then secure the two sections together.

STEP 10
Using a hole punch, punch a hole in the top of your star and thread ribbon through the hole.
