

Yummy Marshmallow Snowmen

These sweet little snowmen are fun and easy to make!
Dress them up however you like. They also make a great party activity.

Time to make: 25 minutes

Difficulty level: Easy

You will need:

Big marshmallows

Tiny marshmallows

Some gummy sweeties

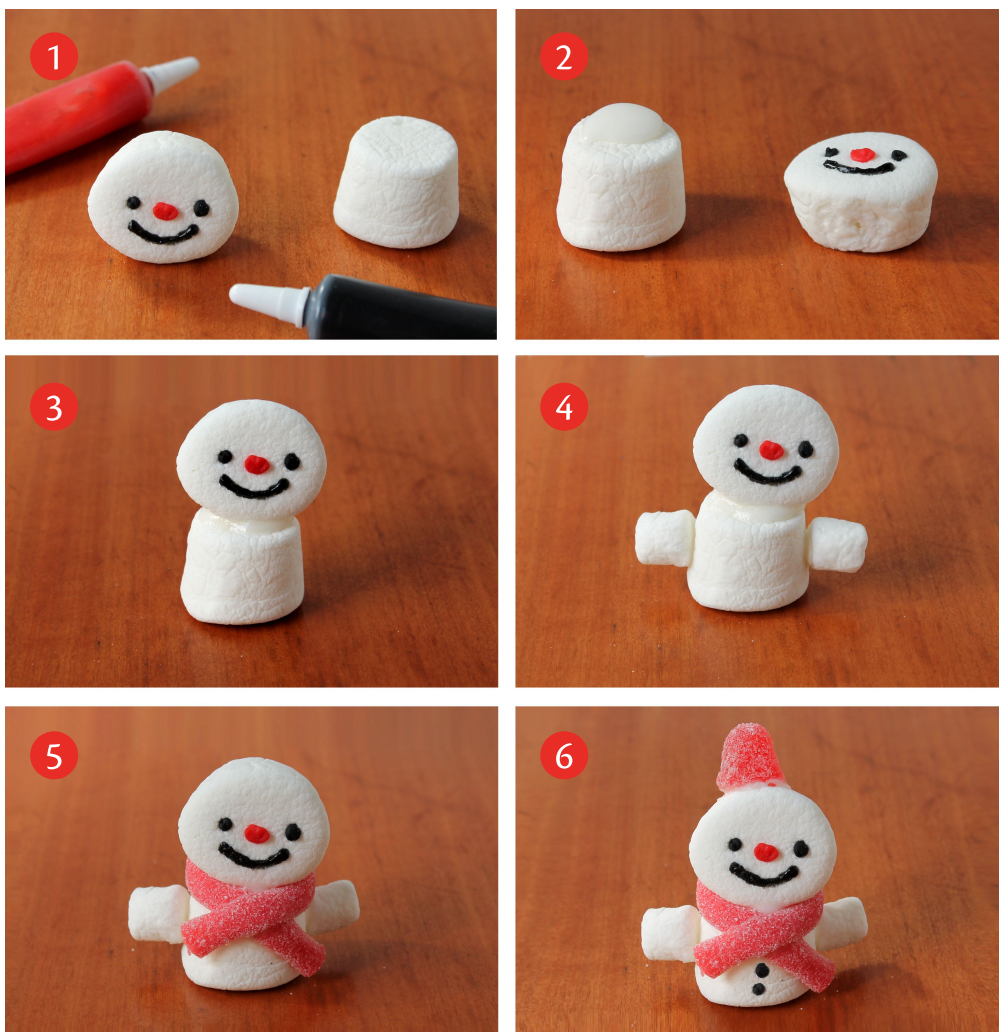

A red licourice lace or similar (try your local pick 'n' mix)

Icing sugar and water to make your 'glue'. Add 3 heaped tablespoons of icing sugar into a bowl, then mix in 2 teaspoons of water and stir.

This should give your glue a nice sticky consistency.

Squeezy tubes of coloured icing (or you can use icing sugar mixed with food colouring and a little water)

A grown-up to help you with the tricky bits

Step 1

Decorate your snowman's face with squeezy icing pens or icing sugar mixed with food colouring. A toothpick works well as a pen.

Step 2

Take one large marshmallow and apply a blob of icing glue to the top.

Step 3

Next take your snowman's face and place it on top. Set aside for a few minutes to dry.

Step 4

Add the arms in the same way. Hold in place for a few seconds until they are set.

Step 5

Next add a nice red scarf, using your icing glue to secure at the back of your snowman's neck and on his front.

Step 6

Now add a gumdrop on top for your snowman's hat, using a dab of your icing glue to secure.

Almost too sweet to eat...but not quite! Yum, yum!
